DuPont Clean Technologies Increases Global MECS[®] Catalyst Prices

WILMINGTON, Del., Aug 3, 2021 – DuPont Clean Technologies (DuPont) has announced a global price increase of \$0.30 / liter for its MECS[®] sulfuric acid catalyst products. Subject to the terms of applicable contracts, the new pricing will take effect immediately. The sulfuric acid industry has been relying on high-performance MECS[®] Catalyst products since 1915 to convert sulfur dioxide (SO₂) to sulfuric trioxide (SO₃) reliably and economically. As a world leader in sulfuric acid process technologies and catalyst production, DuPont supports the sulfuric acid producers around the world with high-quality catalysts that boost plant capacity, improve efficiency and, at the same time, reduce SO₂ emissions.

About DuPont Clean Technologies

The Clean Technologies division of DuPont is a global leader in process technology licensing & engineering, with an unwavering commitment to customer support. We provide extensive global expertise across our portfolio of offerings in key applications - MECS[®] sulfuric acid production, STRATCO[®] alkylation, BELCO[®] wet scrubbing and IsoTherming[®] hydroprocessing. Offering critical process equipment, products, technology and services, we enable an array of industrial markets, including phosphate fertilizer, non-ferrous metals, oil refining, petrochemicals and chemicals, to minimize their environmental impact and optimize productivity. We are dedicated to helping our customers produce high-quality products used in everyday life in the safest, most environmentally-sound way possible, with a vision to make the world a better place by creating clean alternatives to traditional industrial processes. We make everyday life better, safer, cleaner. www.cleantechnologies.dupont.com

About DuPont

DuPont (NYSE: DD) is a global innovation leader with technology-based materials, ingredients and solutions that help transform industries and everyday life. Our employees apply diverse science and expertise to help customers advance their best ideas and deliver essential innovations in key markets including electronics, transportation, construction, water, health and wellness, food and worker safety.
